

Context Therapeutics Announces Poster Presentation at the American Association for Cancer Research (AACR) Annual Meeting 2025

March 26, 2025

PHILADELPHIA, March 26, 2025 (GLOBE NEWSWIRE) -- Context Therapeutics Inc. ("Context" or the "Company") (Nasdaq: CNTX), a clinical-stage biopharmaceutical company advancing T cell engaging ("TCE") bispecific antibodies for solid tumors, today announced a poster regarding the Company's clinical asset, CT-95, a mesothelin ("MSLN") x CD3 TCE will be presented at the American Association for Cancer Research (AACR) Annual Meeting 2025, taking place April 25-30, 2025 in Chicago, IL.

Context will present data highlighting the selection of the first-in-human dose of CT-95, using the minimal anticipated biological effect level ("MABEL") approach, as required for immune agonist drugs. This is the dose level expected to lead to a minimal biological effect level in humans. The weight of evidence of these data supports the safety of the proposed clinical starting dose of 0.1 µg/kg for CT-95.

Poster Presentation Details:

Title: Determination of first in human dose of the T cell-redirecting bispecific antibody CT-95 targeting mesothelin
Abstract Number: 2139
Date and Time: Monday, April 28, 2025, 9:00 a.m. – 12:00 p.m. CT
Session Category: Clinical Research
Session: PO.CL06.04 - Therapeutic Antibodies, Including Engineered Antibodies 1
Location: Poster Section 34

About CT-95

CT-95 is a MSLN x CD3 TCE that is intended to redirect T-cell-mediated lysis toward malignant cells expressing MSLN. MSLN is a membrane protein overexpressed in approximately 30% of cancers. One challenge in developing MSLN-targeted therapies has been the presence of MSLN fragments, also referred to as shed or soluble MSLN, found in both blood and the tumor microenvironment that can serve as a decoy or sink for MSLN-targeting antibodies. CT-95 is a fully humanized bispecific T cell engager that has a moderate affinity but high avidity for membrane-bound MSLN, that is intended to minimize the impact of the shed MSLN.

About Context Therapeutics®

Context Therapeutics Inc. (Nasdaq: CNTX) is a biopharmaceutical company advancing T cell engaging ("TCE") bispecific antibodies for solid tumors. Context is building an innovative portfolio of TCE bispecific therapeutics, including CTIM-76, a Claudin 6 x CD3 TCE, CT-95, a Mesothelin x CD3 TCE, and CT-202, a Nectin-4 x CD3 TCE. Context is headquartered in Philadelphia. For more information, please visit www.contexttherapeutics.com or follow the Company on X (formerly [Twitter](#)) and [LinkedIn](#).

Forward-looking Statements

This press release contains "forward-looking statements" that involve substantial risks and uncertainties for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. Any statements, other than statements of historical fact, included in this press release regarding strategy, future operations, prospects, plans and objectives of management, including words such as "may," "will," "expect," "anticipate," "look forward," "plan," "intend," and similar expressions (as well as other words or expressions referencing future events, conditions, or circumstances) are forward-looking statements. These include, without limitation, statements regarding (i) the ability of the Company, its employees and certain AACR presenters to participate in and present at conferences, (ii) our expectation that the dose level will lead to a minimal biological effect level in humans, (iii) the potential benefits, characteristics, safety and side effect profile of our product candidates, and (iv) the likelihood data will support future development. Forward-looking statements in this release involve substantial risks and uncertainties that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, and we therefore cannot assure you that our plans, intentions, expectations, or strategies will be attained or achieved. Other factors that may cause actual results to differ from those expressed or implied in the forward-looking statements in this press release are discussed in our filings with the U.S. Securities and Exchange Commission, including the section titled "Risk Factors" contained therein. Except as otherwise required by law, we disclaim any intention or obligation to update or revise any forward-looking statements, which speak only as of the date they were made, whether as a result of new information, future events, or circumstances or otherwise.
